## **CORROSION ON ENGINES**

**NO. 17**

**DATE: 7/31/14**

**RE:** All Go-Devil and Surface Drive engines

**PROBLEM:** Rust and corrosion

**CONDITION FOUND:** Engine parts rusting from Brackish and Salt water.

**SOLUTION:** Spray engine with a mixture of 75% WD40 25% Mobil One synthetic motor oil. This should be applied at least 3 times to get enough on to protect from corrosion. The WD40 will flash off in time. WD40 is being used as a carrier to get the Mobil One on the product.

**NOTE:** Gallon of WD40 and spray bottles can be purchased at Home Depot. Mobil One can be purchased from any auto supply or Wal-Mart.

**NOTE:** This mix should be applied to anything rusting on your trailer such as lug nuts, winch, tongue jack and springs.
